Our speaker this morning was Hannah, CFO and owner of Watkins Distributing. which just purchased Intermountain Distributing. The Watkins family has know the Brokop and Nellis families for many years and have the same values about serving others and taking care of their employees.

Watkins Distributing gives approximately \$250,000 back to the community on an annual basis company-wide. This will probably increase with their acquisition of Intermountain Distributing. Watkins Distributing drives to make communities a better place in which to live.
