**If you are assigned to work the Outlaws game this Sunday, show up time is now 2:30... game time has been changed to 4PM.**

Chelsea, the Interim Director for the Billings Public Library was our speaker this morning. The Library's mission statement is "Billings Public Library, where our community connects, grows and thrives.

The Billings Public Library serves 170,000 residents over 2600 square miles. There are 57,000 library card holders and 280,000 visitors per year, along with 33,000 computer sessions logged.

Opened in October, 2024, the CO LAB is a digital design studio, where residents can take various digital design classes.

Using the new Library Express Lockers, residents can go online to [Billingslibrary.org](http://Billingslibrary.org) and check out materials and in a couple of days, pick the materials up at one of four library express lockers placed strategically throughout the city. Billings is the only library with this service. Because of these library express lockers, Billings Library was awarded the Library of the Year.

There are also audio books available, by going online and checking them out.

Tomorrow, the library is hosting the "Bridging MT EXPO", which is a job fair for all of Montana.

New BECON editor next week.
